PROFESSIONAL SUMMARY

Cybersecurity Professional with Top 1% global ranking among 3+ million TryHackMe users (29,996 points). Demonstrated exceptional technical aptitude through 300+ days learning streak and 200+ hands-on security labs. Combines strong analytical foundation with practical experience in SOC operations, penetration testing, and Python security automation. Motivated by personal cybersecurity incidents to protect organizations from evolving threats.

EDUCATION

Bachelor of Technology - Computer Science Engineering, Big Data Specialization	2019 – 2023 Bhadurgardh
Senior Secondary School, Swami Vivekanand Senior Secondary School	2018 – 2019 Raipur,CG
Secondary School, Kaanger Valley Academy	2016 – 2017 Raipur,CG
Cyber Security Diploma, CRAW Security	Saket, Delhi

CORE SKILLS

- Programming & Scripting: Python, Bash, SQL, JavaScript
- Operating Systems: Linux (Ubuntu, Kali, CentOS), Windows
- Cloud Platforms: GCP, AWS
- Security Frameworks: NIST, OWASP
- Vulnerability Assessment: Nessus, OWASP ZAP
- Penetration Testing: Burp Suite, Metasploit, SQL Injection
- Web Security: OWASP Top 10, Code Review
- SIEM & SOC: Splunk, ELK Stack, Log Analysis, Threat Detection
- Network Security: Wireshark, Nmap, Packet Analysis, Network Forensics
- Incident Response: Event Handling, Evidence Collection, Malware Analysis

TRAINING & CERTIFICATES

- Jr Penetration Tester (TryHackMe) - July 2025
- SOC Level 1 Analyst (TryHackMe) - May 2025
- Web Application Security (TryHackMe) - May 2025
- Google Cybersecurity Professional Certificate (Coursera) - May 2024
- Tools of the Trade: Linux and SQL (Coursera) - April 2024
- Google Data Analytics Certificate (Coursera) - April 2022
- Architecting with Google Compute Engine Specialization - Sept 2021

PROJECTS

Security Automation & Testing Suite

- Architected security automation framework reducing manual testing time by 75% through intelligent vulnerability detection
- Built advanced exploitation toolkit for automated SQL injection, XSS, and authentication bypass testing
- Developed enterprise-grade reporting system generating executive summaries and technical remediation guides
- Achieved 95%+ accuracy rate in automated vulnerability identification across 50+ test applications
- Technologies Used: Python, Selenium, Burp Suite, OWASP ZAP, Custom Security Scripts

Linux Security Hardening Project, Personal Project

- Performed comprehensive security analysis on Ubuntu, CentOS, and Kali Linux distributions
- Developed custom Bash monitoring scripts for real-time threat detection and log analysis
- Technologies Used: Linux CLI, Bash Scripting, System Hardening, Log Analysis

PROFESSIONAL EXPERIENCE

Technical Support Engineer, VSK Project, IIT Bhilai (IBITF) 05/2024 – 05/2025

- Automated security monitoring using Python and Bash, reducing manual log analysis.
- Conducted vulnerability assessments on Linux infrastructure
- Developed incident response scripts that streamlined event handling and automated reporting

Cloud Security Facilitator, Google Cloud Program 04/2021 – 09/2021

- Mentored 300+ students in cloud security fundamentals while earning 45+ Google Cloud professional badges

TECHNICAL ACHIEVEMENTS

TryHackMe Elite Performance

- Global Ranking: Top 1% (8727 Rank) among 3+ million users
- Consistency: 300+ consecutive days of active learning and practice
- Hands-on Labs: 200+ completed security challenges across multiple domains
- Specialized Badges: Linux Mastery, SOC Operations, Web Security, Network Analysis, Penetration Testing

Security Expertise Validation

- OWASP Top 10: Practical exploitation and mitigation of critical web vulnerabilities
- Network Forensics: Advanced packet analysis and network threat detection
- Incident Response: Log correlation, evidence collection, and security event analysis
- Automation Development: Python-based security tools for vulnerability assessment and monitoring

Languages

English Hindi
IELTS: 6.0+
